MÁRIO COSTA

◦ Lisbon, Portugal
Senior Backend & Fulstack Developer

EXPERIENCE

Founder & CEO / Lead Software Architect
Bindamy Soluctions   2024

- Built and launched multiple SaaS products, workflow engines, and automation tools powering real businesses.
- Designed scalable architectures using Laravel, Python, Redis, Docker, and microservices with full multitenancy and subscription systems.
- Implemented advanced integrations: WhatsApp Cloud API, Instagram Messaging API, N8N, Stripe/Amys payments, AI agents, and custom automation pipelines.

Senior Fullstack Developer / SaaS Architect
Horariux   Lisbon, Portugal — Aug 2022 – Dec 2024

- Led the architecture of a large-scale appointment-automation SaaS serving restaurants, salons, and service companies.
- Developed core business modules using Laravel, Blade, AlpineJs, livewire and Javascript with Docker.
- Built real-time booking, messaging automations, and official integrations with WhatsApp Non Oficial API, and multiple payment gateways.

Senior Backend Developer → Lead Fullstack Engineer
Mingaxi Group   Jan 2019 – Jul 2022

- Developed hotel, finance, and automation systems using Laravel, Ruby on Rails, and optimized SQL/Redis-based operations.
- Architected APIs, dashboards, and automation workflows that improved internal operational efficiency.
- Led a small development team, introduced modern coding standards, and improved system performance through Docker and queue architecture.

Fullstack Developer (Remote)
Vandervaart..   Amsterdam, Netherlands — Jan 2019 – Mar 2020

- Delivered internal automation tools, dashboards, and fullstack features using Ruby on Rails and React, also with Python for automated scripts.
- Collaborated with international teams under Agile/Scrum practices, improving delivery speed and code quality.
- Optimized backend and frontend pipelines, enhancing load times and user experience for client-facing applications.

Fullstack Developer (Remote)
AVAGroup   EUA / Angola — Jan 2018
Non-profit, Angolan Virtual Airline Organization)

- Progressed from simple member to Developer and eventually CEO, actually, leading teams, operations, partner relations, and community growth within the organization.
- Designed and maintained internal platforms, event management systems, and simulation-related tools used by pilots and staff.
- Led national simulator events, ensured compliance with safety and certification standards, and coordinated partnerships with organizations including TAAG Virtual.

EDUCATION AND CERTIFICATIONS

Computer Science CS50
Harvard University   2021

- Introduction to Computer Science (Harvard University) – Covered algorithms, data structures, C, Python, SQL, and web development fundamentals.

English Course
Wall Street English Portugal   2022 at 2024

- Wall Street English – Intensive English course focused on practical communication, covering speaking, listening, reading and writing skills in everyday and professional contexts.

SUMMARY

Senior Backend & Fullstack Developer with over 6 years of experience delivering custom digital solutions for businesses. I entered the tech world young out of curiosity and a drive to understand how things work—and how to make them better. I specialize in building CRMs, ERPs, SaaS platforms, APIs, dashboards, landing pages, and workflow automations that streamline operations and increase team efficiency. I stay current with modern engineering practices, continuously testing new tools and technologies to deliver scalable, reliable, and high-performance solutions.
